Education

1. Bachelor of Education in Computer Science with Second Honor

June 10th, 2007

Teachers College Riyadh, King Saud University, Computer Science department, Rating (Excellent), G.P.A (4.66 out of 5.00).

1-1 Bachelor of Education in Computer Education “after evaluated the previous certificate in

United States on Oct 13th, 2010”.

Comparable to a bachelor’s degree from a regionally accredited institution of higher education in the United States. G.P.A (3.64 / 4.00) .

- **Graduation Project:**

“Using a Computer as a Router to Connect between Computers”

- **Description:**

The idea of the project was simply distinctive. It was established with a regular computer that can act as a connector “Router” between computers in order to transfer information among them, and then there is no need to get a special router to do this mission.
