

Course specifications (Postgraduate Degree)

| Course Title: | Spores Biology | |
|---------------|-------------------------|--|
| Course Code: | 661MBIO | |
| Program: | Ph.D in Microbiology | |
| Department: | Botany and Microbiology | |
| College: | Science | |
| Institution: | King Saud University | |

Table of Contents

| A. Course Identification | 3 |
|--|---|
| 6. Mode of Instruction (mark all that apply) | 3 |
| B. Course Objectives and Learning Outcomes | 3 |
| 1. Course Description | 3 |
| 2. Course Main Objective | 4 |
| 3. Course Learning Outcomes | 4 |
| C. Course Content | 4 |
| D. Teaching and Assessment | 5 |
| 1. Alignment of Course Learning Outcomes with Teaching Strategies and Assessment Methods | |
| 2. Assessment Tasks for Students | 5 |
| E. Student Academic Counseling and Support | 6 |
| F. Learning Resources and Facilities | 6 |
| 1.Learning Resources | 6 |
| 2. Educational and research Facilities and Equipment Required | 6 |
| G. Course Quality Evaluation | 6 |
| H. Specification Approval Data | 7 |

A. Course Identification

| 1. Credit hours: 2 (2+0) | |
|--|--------------|
| | |
| 2. Course type | |
| Required | Elective |
| 3. Level/year at which this course is offered: | Second level |
| 4. Pre-requisites for this course (if any) NA | |
| 5. Co-requisites for this course (if any):NA | |

6.Mode of Instruction (mark all that apply)

| No | Mode of Instruction | Contact Hours | Percentage |
|----|-----------------------|----------------------|------------|
| 1 | Traditional classroom | 28 | 100 % |
| 2 | Blended | | |
| 3 | E-learning | | |
| 4 | Correspondence | | |
| 5 | Other | | |

7. Actual Learning Hours (based on academic semester)

| No | Activity | Learning Hours |
|-------|---------------------------------|-----------------------|
| Conta | ct Hours | • |
| 1 | Lecture | 20 |
| 2 | Laboratory/Studio | |
| 3 | Seminars | 8 |
| 4 | Others (specify) | |
| | Total | 28 |
| Other | Learning Hours* | |
| 1 | Study | 15 |
| 2 | Assignments | 8 |
| 3 | Library | 15 |
| 4 | Projects/Research Essays/Theses | 7 |
| 5 | Others(specify) | |
| | Total | 45 |

^{*}The length of time that a learner takes to complete learning activities that lead to achievement of course learning outcomes, such as study time, homework assignments, projects, preparing presentations, library times

B. Course Objectives and Learning Outcomes

1. Course Description

Studying the history of spores, defining and classifying them according to structure, movement and function, in addition to identifying the mechanics of their formation, germination, life cycle and their role in pollution and infection.

2. Course Main Objective

The aim of this course is to identify the mechanisms of spore formation, germination methods, life cycle and role in pollution and infection.

3. Course Learning Outcomes

| | Course Learning Outcomes (CLOs) | AlignedPLO s* |
|-----|---|------------------|
| 1 | Knowledge | |
| 1.1 | Students will be able to recall the general mechanisms of spore formation, germination methods, life cycle. | K1.1 |
| 1.2 | Students will be able to describe the principles and applications of the advanced approaches used for pollution and infection. | K1.4 |
| 1.3 | Students will be able to underline the control of spores infection that require further investigation in the field of specialization. | K1.2 |
| 1 | | |
| 2 | Skills | |
| 2.1 | Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. | S2.1 |
| 2.2 | Students will be able to design study plans to solve problems pollution from Spores Biology. | S2.2 |
| 2.3 | | |
| 3 | Competence | |
| 3.1 | Students will be able to interpret results of spores contamination and correlate data in a scientific context. | C3.2 |
| 3.2 | Students will be able to present the scientific data and research results in meetings, seminars, and conferences. | C3.7 |
| 3 | | |

^{*} Program Learning Outcomes

C. Course Content

| No | No List of Topics | |
|----|--|----|
| 1 | History and Etymology for spore, | 2 |
| 2 | Definition, forms, places of deployment | 2 |
| 3 | Mechanisms of he formation and germination of spores | 2 |
| 4 | Classification of spore-producing organisms(Plants, Microbes) | 4 |
| 5 | Classification of spores (By spore-producing structure, By motility, By function, By origin during life cycle) | 6 |
| 6 | Homosporous and Heterosporous; monolete and trilete | 2 |
| 7 | Resistance to environmental factors | 2 |
| 8 | Their role in the microbial dispersal, | 4 |
| 9 | pollution and infectioin | 4 |
| | Total | 28 |

D. Teaching and Assessment

1. Alignment of Course Learning Outcomes with Teaching Strategies and **Assessment Methods**

| Students will be able to recall the general mechanisms of spore formation, germination methods, life cycle. Students will be able to describe the principles and applications of the advanced approaches used for pollution and infection. Students will be able to underline the control of spores infection that require further investigation in the field of specialization. Skills Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. | rt |
|---|------|
| 1.1 general mechanisms of spore formation, germination methods, life cycle. Students will be able to describe the principles and applications of the advanced approaches used for pollution and infection. Students will be able to underline the control of spores infection that require further investigation in the field of specialization. 2.0 Skills Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. It is a provide the lecture is the lecture of them work is a principle and applications of the advanced for pollution and applications of the advanced operation and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. | rt |
| 1.2 principles and applications of the advanced approaches used for pollution and infection. Students will be able to underline the control of spores infection that require further investigation in the field of specialization. 2.0 Skills Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. Proports, presentations Quizzes, discuss Oral presentations Assigning son group projections, group projections. | |
| 1.3 control of spores infection that require further investigation in the field of specialization. 2.0 Skills Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. Control of spores infection that require reports, presentations Puizzes, , discuss Ouizzes, , discuss Oral presentations Oral presentations Assigning son group projections. | |
| Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. Students will be able to proficiently apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. Oral presentation and reports, group projections. | ions |
| apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. apply the standard operating protocols of conventional and advanced laboratory procedures and reconstruct new strategies for prevention and treatment of Spores Biology infections. Oral presentat Assigning son group projections. | |
| 2.2 Students will be able to design study plans to solve problems pollution from Spores Biology. | ne |
| | |
| 3.0 Competence | |
| Students will be able to interpret results of spores contamination and correlate data in a scientific context. Students will be able to interpret lectures • workshops • workshops | ssay |
| Students will be able to present the scientific data and research results in meetings, seminars, and conferences. *WORKSHOPS DISCUSSION | |
| | |

2. Assessment Tasks for Students

| # | Assessment task* | Week Due | Percentage of Total Assessment Score |
|---|------------------|----------|---|
| 1 | Midterm exam | 6 | 30% |
| 2 | Worksheet | 4 | 10% |
| 3 | Discussion | 9 | 10% |
| 4 | Presentation | 11 | 10% |
| 5 | Final Exam | 15 | 40% |
| 6 | | | |
| 7 | | | |
| 8 | | | |

^{*}Assessment task (i.e., written test, oral test, oral presentation, group project, essay, etc.)

E. Student Academic Counseling and Support

Arrangements for availability of faculty and teaching staff for individual student consultations and academic advice:

Office hours (2/ weekly)

Personal web site

Contact through e-mail

F. Learning Resources and Facilities

1.Learning Resources

| 1.Learning Resources | |
|----------------------------------|--|
| Required Textbooks | 1-Roff, D. <i>The Evolution of Life Histories: Theory and Analysis</i> . New York: Chapman & Hall, 1992 2- Graham, L., J. Graham, and L. Wilcox. <i>Plant Biology</i> , Upper Saddle River, NJ: Pearson Education, 2003 3- Esther R Angert. (2014). Sporulation in Bacteria: Beyond the Standard Model. ResearchGate |
| Essential Reference Materials | |
| Electronic Materials | |
| Other Learning Materials | https://www.microscopemaster.com/sporulation.html https://www.microscopemaster.com/sporulation.html#gallery[pageGallery]/ O/ https://micro.cornell.edu/research/epulopiscium/bacterial-endospores https://www.onlinebiologynotes.com/bacterial-spore-structure-types-sporulation-germination/ https://www.newworldencyclopedia.org/entry/Spore |

2. Educational and research Facilities and Equipment Required

| 2. Daucational and I escal citi acin | nes una Equipment Requirea | |
|--|--|--|
| Item | Resources | |
| Accommodation (Classrooms, laboratories, demonstration rooms/labs, etc.) | Classrooms, laboratories, demonstration rooms/labs | |
| Technology Resources (AV, data show, Smart Board, software, etc.) | data show, Smart Board, software | |
| Other Resources (Specify, e.g. if specific laboratory equipment is required, list requirements or attach a list) | | |

G. Course Ouality Evaluation

| Evaluation Areas/Issues | Evaluators | Evaluation Methods |
|--|---|---|
| Effectiveness of teaching and assessment | Student, peer Reviewer, program leaders | Course evaluation questioner Students- faculty meetings |

| Evaluators | Evaluation Methods |
|--|---|
| Program Leaders, faculty, quality and development unit | Preparation of course report Peer consultation on teaching Departmental council discussions Self evaluation |
| Student, faculty, internal and external auditors | Course evaluation Self-study report |
| | Program Leaders, faculty, quality and development unit Student, faculty, internal and |

Evaluation Areas/Issues (e.g., Effectiveness of teaching and assessment, Extent of achievement of course learning outcomes, Quality oflearning resources, etc.)

Evaluators (Students, Faculty, Program Leaders, Peer Reviewer, Others (specify) Assessment Methods(Direct, Indirect)

H. Specification Approval Data

| Council / Committee | Botany and microbiology |
|---------------------|-------------------------|
| Reference No. | |
| Date | |
