PROFILE

-  I am graduate student who is keen to join the radiology department in the college of KSU that would offer an opportunity to continue my education and be an academic doctor in radiology department.
-  Extremely interested in ultrasound, especially in echocardiography.

LANGUAGES

-  Arabic
-  English

EDUCATION

- Graduated from King Saud University (KSU) in Riyadh/Saudi Arabia with a Bachelor degree in Applied Medical Sciences, Radiological Sciences (2011-2012).

TRAINING

I had rotated in different radiology department at KCUH, KFMC, KAUH, KFSH & RC, KSMC, and Security Forces Hospital, as part of my academic program requirements.

Internship year [February 2011- Present] in King Khalid University Hospital, Riyadh, Saudi Arabia.

12 month training as a radiology technologist, with clinical rotation in General X-ray, US, NM, MRI, CT, Echocardiography.

I spend my area of interest in ultrasound for 4 month (8 week in echocardiography).

SYMPOSIUM ATTENDED

- ✚ Attending Venipuncture (Theory& Practice) in Radiology (May 2009).
- ✚ Attending Mini Symposium Obstetric & Gynecological Ultrasound Year-End Activity (Dec 2009).
- ✚ Attending International Conference on Radiation Medicine Clinical Application and Innovative Approaches (Mar 2010).
- ✚ Attending Radiology Update, KSU Conference on Recent Development in Diagnostic & interventional Radiology (Apr 2011).

ABOUT ME

- ✚ I have Computer skills: Windows, Microsoft (word, power point, excel), and Internet.
- ✚ I'm a good team player, punctual, work under pressure and hard working person.
- ✚ I always maintain good and professional relations with my colleague and with the patients.
- ✚ I like to participation activates (work activities or social activities).
- ✚ I like reading, and explaining any information that I have to someone else.
- ✚ I aim to improve myself as person and as a technologist by improving my knowledge and my skills, always up for new challenges and discussions that can enrich my mind.
