

## *CHS 431*

### *Enteral and Parenteral Nutrition*

#### *Seventh assignment*

- Calculate the following for protein, fat, CHO, Kcal:
  1. 1200 mL F/S Isomil.
  2. 600 mL 1/2 st Similac advance.
  3. 350 mL 3/4 st Nan
  4. 400mL Similac advance + 3% Polycose + 1 % MCT
  
- A 5 months old boy 6kg and 63 cm length on nan1 ad lib. His intake is fair; he can only finish 60mL every 3hrs.
  - Concentrate the formula to S24 and S27 to meet patient's need if the 1 scoop from nan1 have 4.3 gm and the Kcal/gm = 5.19
