- Office: 2199 - building 31

Objective:

The goal of this homework is to become familiar with bash commands and environment.

You are required to work with any 10 shell commands of your choice, try their options and submit a screenshot of the result of your work for each command. I.e. ls, cd, mkdir etc. You can find the full list of commands in the link below.

I encourage everyone and strongly recommend that you setup Linux environment on your home machine. If you have any question doesn't hesitate to ask.

Deadline:

Noon, Sunday 17-2-2013.

Submit it to me via Email.
