

Clinical Skills Project

Objective:

This project aims to evaluate and monitor the development of your clinical skills as an upcoming pharmacist. You must use the knowledge and information that you gain through the course and demonstrate them in a professional way. All the groups will present their work at the same day and they will be evaluated in many aspects (creativity, teamwork, usability....).

Presentation Methods: (one/more)

- Role play
- Roll up
- Brochure
- Video
- Or/and any creative educational idea

The PowerPoint presentation is not acceptable
