

Student Name:.....

Student ID:.....

College of Applied Studies and Community Service
King Saud University (KSU)

CT 1314 - Homework#10

Question 1

You want to view all information events that are related to logon access and security for the user "Admin1" (excluding event with ID = 10). Apply these choices in the Filter window below.

Question 2

Your Domain Name System (DNS) server is not operating well. It is mapping wrong IP addresses to domain names. Is there any way to track the behavior of its events.
