7) Read this passage then answer the following questions:-

William Shakespeare was born on April 23rd, 1564. He was born in Stratford, a town in the center of England. He is probably the most important person in English literature. However, we know very little about his childhood or early life. We do know that he did not go to university. He got married at 18 to Anne Hathaway. Their first child, Susanna, was born one year later, in May 1583. His twins were born in February 1585. He wrote his first play in 1589. It was called Henry VI. In 1594, he moved to London. He became an actor, but he continued to work as a playwright. He wrote thirty-five plays altogether. People know his characters, including Hamlet, Romeo and Juliet and Macbeth, all around the world. He wrote comedies – funny plays' histories – about the lives of kings and queens; and tragedies – play with an unhappy ending. He died on his birthday in 1616.
