## Professional Training

Academic Internship, in the United States, Omaha Nebraska, Creighton University 31/1/2015 to 10/6/2015

Worked in the Omaha Fire Department along with various number of hospitals such as Nebraska medical center (UNMC), Creighton medical center, mercy hospital, midlands hospital.....etc, at variety of medical units such as ER, RT, OR, ICU And Squads in the Omaha Fire Department. The program enabled me to explore and perform a professional medical practice with various clinical skills such as administration of medication, 12 lead EKG monitoring, ventilator management, IV lines, clinical decision making and documentation.

Academic Internship, Prince Sultan Bin Abdulaziz College for EMS, Riyadh, Saudi Arabia 12/2014 to 30/1/2015

Assisted Head of Department and EMS Program Director to conducted courses, practical skill instruction and end of course examinations. Assisted guest Professor from Stanford University to conduct lectures and skill instruction, specifically medical emergencies and assessment.

Paramedic Field Training Internship, Saudi Red Crescent Authority, Riyadh, Saudi Arabia 06/2014 to 12/2014

Performed dispatching duties that covered eastern Riyadh. Assisted field command units by responding to large scale and high priority incidences and provided supervision of units and personnel. Provided field based emergency care with several paramedics and physicians working on Saudi Red Crescent ambulances. Common patients encountered were high priority traumas, traumatic and medical cardiac arrests, neurological, pulmonary, infectious disease, cardiac and endocrine emergencies. Approximate total time spent was 1,150 hours.

Haji Mass Gathering Internship, Mekkah, Saudi Arabia 10/2013

Performed emergent and non-emergent medical services for 10 days with Saudi Red Crescent Authority during Hajj, which the world's largest annual mass gathering. Assisted patients from ambulance stationed at the city of Mena. Provided care to patients from several nations suffering from minor injuries to various forms of shock, traumatic injuries and provided cardiopulmonary resuscitation for patients that went into cardiopulmonary arrest.

Umrah Mass Gathering Internship, Makkah, Saudi Arabia 08/2013

Performed emergency and non-emergent medical services with Saudi Red Crescent during Umrah for the last 10 days of Hijri month of Ramadan, which is the busiest month for Umrah. Was part of mobile teams stationed in the crowds of people to respond to and provide emergency care.
