

ARCH 450 Architectural Design-4 5 (0 + 10 Studio)

Course aims:

Study of building complex projects dealing with non-conventional cultural, social and symbolic issues and attempting to link them to urban tissue (public facilities of multifunctional nature). At least two projects and two design quizzes to be undertaken. Analysis of precedent case-studies. Encourage students to use acquired skills (sketches, preliminary drawings and study models). Use of CAD for final presentation of projects.
