OBJECTIVES

Looking for a position in the exciting clinical sciences field that will allow me to gain experience with a diverse and challenging population of patients and samples, in order to participate in helping the medical society in achieving the noble mission of medical sciences.

EDUCATION

2005 – 2010, King Saud University, Riyadh

Bachelor of Clinical Laboratory Sciences in the field of “Medical Applied Sciences.”

EXPERIENCE

Clinical Laboratory Sciences | | College of Medical Applied Sciences
| | King Saud University | | Teaching assistant

Period: November 2011 – present

- Carry out a variety of laboratory tests, including: microscopic, microbiological and chemical tests using different kinds of instruments.
- Treat specimens using reagents, heat and/or filters as required.
- Writing comprehensive reports about different tests results.
- Incorporate quality control checks throughout the complete diagnosis procedure.

PROFESSIONAL MEMBERSHIP

Member in Saudi Society for Clinical Laboratory Sciences (SSCLS)

Also an active member in the Public Relations and Media Committee of SSCLS
(www.sscls.org.sa/PR-comm.php)
