

Name: ID:

Start a new document by (MS Word), and save it with your name then do the following:

A- Write the following paragraph:

What is Water made of?

Everything is made of atoms. An atom is the smallest particle of an element, like oxygen or hydrogen. Atoms join together to form molecules. A water molecule has three atoms: two hydrogen (H) atoms and one oxygen (O) atom. That's why water is sometimes referred to as H₂O. A single drop of water contains billions of water molecules.

B- For title only (What is Water made of?) , apply the following:

Font= Impact color= Green
Size= 24 Style= Bold , Underline

C- For the paragraph , apply the following:

Font= Arial color= Red
Size= 18 Style= Bold , Italic

Good Luck
