

Biography of Dr. Seham S. ALTERARY

Seham S. ALTERARY is Saudi chemistry Professor who was born in Riyadh KSA. In 1994 she earned a B.S. in chemistry from the University of King Abdul-Aziz in Jeddah, where she accepted a position of demonstrator in Faculty of Science-Chemistry Department in same University. In 2003, she earned Master degree of Science with Excellent grade at the University of King Abdul-Aziz in Jeddah. In 2003, she received her PhD from University of Paris Didrot 7 in Spectroscopic Methods & Nano-technology Applications in France. She enrolled in King Saud University as Assistant Professor of Organic Chemistry since 2011 till now. In 2014, she became the Vice-Head of the Department of Physics & Astronomy in Collage of Science King Saud University. She carried out many undergraduate researches in magnetic nano-catalysts and their applications in organic reactions. In 2016, she became supervisor of nanotechnology unit in girls University City. She wrote a book with her colleague in organic chemistry titled "Heterocyclic chemistry and biomolecules through practice problems", the book is under review these days. Also, she is member of Saudi Chemical Society and member of Royal Society of Chemistry.
