

### CV of Dr. Saleh Al-Quraishy

1. Name	Saleh A-R. Al- Quraishy
2. Present position	Professor of Parasitology
3. Degree Obtained	Doctor of Philosophy
4. Academic Position	Professor
5. Specialization	Zoology, Parasitology
6. Field of interest	Parasitology, Biodiversity
7. Contact address	Dept. of Zoology College of Science King Saud University P. O. Box 2455, Riyadh 11451 Saudi Arabia Tel.: +966-1-4675754; Fax: +966-1-4678514  Email: guraishi@yahoo.com  Email: squraishy@ksu.edu.sa
8. Year of Birth	1964
9. Nationality	Saudi
10. Marital Status	Married

#### Conference:

- 1- Participation in the XVI International Congress of the German-Egyptian Society of Animal Science at the University of the Suez Canal in the period from 5 to 9 March 2006. (with paper).
- 2- Participating in the Seventeenth International Conference of the Egyptian Society of German zoology at the University of Technology, Dresden, Germany from 22 – 26/ 07/2007 . (with paper).

- 3- Participation in the International Conference on the Arabian Oryx in the Arabian Peninsula at King Fahd Cultural dated 22/04/2007. (Attendance)
- 4- Participation in the Conference of the Third Saudi Science new horizons in science and its applications in the period from 8 -11/ 02 /2007. (Attendance).

### **Symposia:**

- 1- The University Measures Towards World Recognition (held in King Saud University, 3-5-2009)
- 2- Distinguished Publications in Nature & Science I (held in King Saud University, 31-5-2009)
- 3- Distinguished Publications in Nature & Science II (held in King Saud University, 1-6-2009)
- 4- International Publication of KSU Journals (ELSEVEIR) (held in King Saud University, 24-6-2009)
- 5- The development of KSU Journals (ELSEVEIR) (held in King Saud University, 11-11-2009)
- 6- Towards World Class University : Distinguished Research & Publications (held in King Saud University, 17-1-2010)
- 7- International Research Groups: Towards Scientific Excellence (held in King Saud University, 24-1-2010)
- 8- How to Search ISI Web of Knowledge(held in King Saud University, 9-5-2010)
- 9- Carnivory Initiative Flytrap meets High-Tech(held in King Saud University, 16-5-2010)

### **Scholarships and awards**

- 1 - King Saud University Award for Excellence in Scientific Publishing for the academic year 2008-2009
- 2 - Faculty of Science Award for Excellence in Scientific Publishing for the academic year2008-2009
- 3 - Faculty of Science Award for Excellence in Scientific Publishing for the academic year2009-2010
- 4 - Award of Saudi Society for the life sciences for the patent 2010
- 5- Award of King Abdul Aziz and his talent for innovation 2010

### **Committees:**

- 1- Commission's decision to cultural and social committee, Zoology department since 2008
- 2- Member of Procurement committee, Zoology Department since 2008
- 3- Member of labs and instruments committee, Zoology Department since 2008
- 4- Member of Parasitology and Entomology group, Zoology Department since 2008
- 5- Member of graduate student and Employment committee, Zoology Department since 2008

### **Membership of Scientific Associations**

- 1- Saudi Society for the Life Sciences since 2008
- 2- Member of the Egyptian German Society of Zoology since 2008

### **Scientific activities**

**1- Participating as PI in project** number (08-BIO163-2) from National Program for Science and Technology , Saudi Arabia.

**Title of the project:** Molecular biological studies for both identification of freshwater snails and diagnosis of infection by Anthroponotic schistosomes in southwest region of Saudi Arabia.

**2- Participating as Co-applicant in project** number (Zoo/2009/20) from the Research Center, of College of Science, King Saud University, Saudi Arabia.

**Title of the project:** Microsporidiean parasites of lizard fish, *Saurida undosquamis* from the Arab Gulf, Saudi Arabia.

**3- Participating as PI in project** number (NPAR3-(15)) from The Applied National Research Project, Deanship of Scientific Research , King Saud University, Saudi Arabia.

**Title of the project:** Molecular and microscopic diagnosis of some parasites infecting fish from Arab Gulf in Saudi Arabia

**4- Participating as PI in project** number (10-BIO1212-02) from National Program for Science and Technology , Saudi Arabia.

**Title of the project:** Reprogramming by testosterone of gene expression in the anti-malaria effector sites spleen and liver.
