

GE-105  
Section 09, CRN: 36106/7/8  
First Semester 1438-39 H (Fall-2017) – 2(1,1,2)  
“Introduction to Engineering Design”

Monday, Dec. 11, 2017 (23/03/1439H)

**Homework 4**

#	Names:	Student Numbers:
1.		43
2.		43
3.		43
4.		43
5.		43

**Solve the problem described below [10 points]**

You are requested to summarize a case study involving engineering ethics.  
Your summary should include:

1. Background (e.g. what product, service, etc. was involved)
2. What conflict of interest, ethics issue was involved
3. What the person/people involved did regarding this issue
4. The consequences of the actions of the people involved
5. All relevant NSPE Rules of Practice and/or Professional Obligations
6. What would you do in this situation? Why?

**Rules:**

- You should work with your **project group** for this assignment.
- The answer should not exceed **one page** in length.
- Your work must be **typed** and written in **proper English**.
- Make sure to use properly **captioned figures/tables** (where applicable) and to properly cite all utilized **references**.
- Due date: **Monday, December 18, 2017** (30/03/1439)
