

### **Personal Details**

Address: Saudi Arabia, Riyadh.  
Home Tel.: +966550500747  
Email: *afalamry@ksu.edu.sa* - *afalamry@gmail.com*

### **Introduction**

I am a Lecturer in department of Geography in King Saud University in Saudi Arabia. I'm primarily interested in mapping in geography (for example, Web Maps, Application Web Map). However I also work to develop myself in Geographic Information System through workshops and courses. Between 2011-2015 I had created web map application on the internet about Earthquake in Saudi Arabia for a master's degree in geography master's. I attended many courses during work inside and outside of my country. I attended several meetings and workshops in the field of study specialization. I had scholarship to study English language from King Saud University to the English Language Institute Of the University of Tennessee, USA.

### **Career History**

- 2008, I got bachelor's degree.
- 2009, I work on Ministry of Education in Saudi Arabia.
- 2010, I enrolled graduate school in King Saud University.
- 2015, I get a master's degree from King Saud University.
- 2015, I had had scholarship in United States of America.
- Working with ArcGIS Viewer for Flex and Silverlight.
- I had courses for Geographic Information System in:
  - What's new in ArcGIS Server at 10.1.
  - Migrating your Enterprise GIS implementations to ArcGIS Server 10.1.
  - Introduction to map Automation through Python.
  - Introduction to ArcGIS for Server 10.1 APIs.
  - Building Web Editing Applications with ArcGIS 10.1 for Server.
  - Building Geoprocessing Tools using Model Builder.
  - Best Practices for Designing Effective Map Services.
