**Login Form 2:** It contains username and password which compares with the first page username and password. If the UserName and the password is correct it will display the third form

A screenshot of a Java Swing window titled "Login". The window has a blue title bar with standard Windows controls. The main content area is light gray and contains the text "Login Form" at the top. Below this, there are two labels: "User ID" and "PassWord". Each label is followed by a white text input field. At the bottom of the form, there are two buttons: "Submit" and "Cancel".

**Form 3:** It displays the welcome screen after login

A screenshot of a Java Swing window titled "Welcome". The window has a blue title bar with standard Windows controls. The main content area is light gray and contains the text "Welcome" in the center.
