

1. Confidence interval for one variance (standard deviation) (294-296)+ Appendix 6-case6
2. Confidence interval for the ratio between two variances (standard deviations) (385)+ Appendix 6-case7
3. Hypotheses (300-304) + Appendix 8
4. Test for one mean (310-318)
5. Test for one Proportion (323-325)
6. P-value (328-330)
7. Test for one Variance (Appendix chapter 8)
8. Test for Two means (345-348 + 351-352 + 357-360)

Note : t test from the appendix (Use S_p)
9. Analysis of Paired Data [Confidence interval + test] (365-370) + Appendix 6-case5
10. Test for Two Proportions (375-377)
11. Test for Two Variances (383-384)
12. Goodness of fit test (594-598) + Appendix 14
13. Two-Way Contingency table [Test for Homogeneity + Test for Independence] (613-618)
