

For Student Clinical Performance in Postnatal Unit

Student name:

I.D number

No	Evaluating items	Total grade	Student mark	Comment
I	History taken:	11		
1	Personal history	1		
2	Medical history	1		
3	Surgical history	1		
4	Family history	1		
5	Menstrual history	2		
6	Family planning history	1		
7	Obstetric history	2		
8	Delivery history	2		
II	General examination:	14		
1	Explain procedure	0.5		
2	Prepare equipment	0.5		
3	Hand washing	0.5		
4	Vital signs	1		
5	Provide privacy	0.5		
6	Empty the bladder	2		
7	Assess bowels habits	1		
8	Positioning	1		
9	Assess of Head	1		
10	Assess of Neck	1		
11	Palpation of Breast (size , shape ,discharge, tenderness).	2		

12	Assess of Upper limb	1		
13	Assess of lower limb (Homan's signs , Edema assessment).	2		
III	Abdominal examination: Inspection: scares, umbilical hernia .	1		
IV	Uterine Assessment : Palpation of fundus (level of fundus "height", consistency , location)	3		
V	Lochia Assessment : (color, type, amount, odor)	2		
VI	Episiotomy, Laceration , Perineum Assessment. REEDA { R=Redness , E=Ecchymosis , E=Edema , D=Discharge, A=Approximation}.	3.5		
VII	Psychological Assessment , (see Beck Depression Inventory scale " BDI ").	1		
VIII	Newborn examination : (head circumference, chest circumference, height , weight , reflex)	3		
X	Reassure mother and tell her about findings	0.5		
XI	Replace equipment	0.5		
XII	Hand wash/ record and report	0.5		
XIII	NCP(Ng, diagnosis , goal , intervention, and evaluation)	5		
XIV	Oral question	5		
	Total mark	50
