**PERSONAL STATEMENT**

---

As a qualified doctor, forensic medicine expert, I have extensive knowledge in the medical field. Despite being relatively newly qualified in my field, my superiors felt confident in giving me a supervisory role within my department, demonstrating a faith in my capabilities that they have yet to regret. Although new to this position, these past few months have shown me the state of education and healthcare in Saudi Arabia and made me strongly believe that severe improvements are necessary. As a result, I decided to delve further into the political and legal aspects of medicine, as well as improve my interpersonal and leadership skills, in the firm belief that I can aid in its development and improvement, both now and in the future.

---

**EXPERIENCE**

---

*King Saud University*

**Teaching Assistant, Demonstrator**

01/01/2009 – Present

I assist in teaching undergraduates, from demonstrating the use of equipment to aiding in the performance of surgical techniques and processes.

**Responsibilities**

- Demonstrate and assist in the use of practical equipment, experiments, exercises, workshops and/or processes and to answer questions related to these demonstrations.
- Maintenance of the day-to-day operation of the laboratory and ensure that equipment is functional and/or material for demonstrations, exercises etc. are prepared before the start of the session.
- Be aware of any health and safety implications of procedures, and take action to maintain a safe environment, raising any concerns with the course organiser/work supervisor.
- Provide feedback on student performance to the course organiser/work supervisor.
- Assist in marking student tests set by the course organiser using defined marking criteria.
- Maintain student attendance records.

**Forensic Medicine and Toxicology Unit, Acting Supervisor** 01/01/2014 – 01/10/2014

Supervise all areas and employees of the unit in the college of medicine

**Responsibilities**

- Work with managers to plan, strategize and coordinate academic courses of college of medicine and King Saud University.
- Supervise all academic activities, research, training programs and CME courses

**Forensic and Toxicology course, supervisor**

01/01/2014 – 01/10/2014

**Responsibilities**

- To lead tutorials/classes for students about key points from lectures and/or course materials and to clarify any doubts or queries these may have.
- To carry out necessary reading and preparation on topics in order to be able to guide discussion, impart knowledge and answer queries arising from students
- Identification of topics for discussion and assist in developing reading lists.
- Contribute to setting and marking assignments and exams.

- Monitor student progress and provide feedback, highlighting to the Course Organiser any concerns about student performance or pastoral issues.
- To be aware of any Health and Safety, disability, equality or welfare issues.

*King Khalid University Hospital*

**Forensic Medicine and Toxicology Unit, Acting Supervisor** 01/01/2014 – 01/10/2014

I supervise all areas of the hospital unit, from facilities and record keeping to staff rotas and performance reviews.

**Responsibilities**

- Work with the Manager to plan, strategize and coordinate the health services of a hospital.
- Monitor work quality and department effectiveness to reach financial goals and maintain budgets.
- Improve care efficiency and represent the department at board meetings
- Work with the quality department to maintain international accreditation standards

**Medical Doctor**

25/07/2009 – Present

I work in the forensic Unit, performing routine autopsies, sample processing and consultation

**Responsibilities**

- Work alongside my peers to perform autopsies as required by the hospital
- Perform surgical pathology: Gross Routine Specimens, Frozen Sections and Biopsies
- Act as a specialist for clinical forensic medicine to all related medical fields

*The School of Health Sciences at Flinders University*

**Co- supervisor**

01/10/2014- Present

The Doctorate of Public Health degree program in the School of Health Sciences at Flinders University:

I am supervising Mr Zakaria Elmojrab who is currently enrolled in the Doctorate of Public Health degree program in the School of Health Sciences at Flinders University. His research interests are in the field of obesity prevention in adolescents. Zakaria intends to collect data in Saudi Arabian students to explore adolescent males' understanding of obesity and its determinants.

*King Abdulaziz Medical City*

01/01/2012-01/01/2013
