Email Address :

Doaa.elnagar@women.asu.edu.eg

elnagard1@yahoo.com

Tel:01024952298

Language:

- **Arabic**
- **English**

Gender: Female

Nationality: Egyptian

Research Interest

- Histology.
- Histochemistry .
- Toxicants.
- Nanotechnology

Computer Skills

Word, Excel, PowerPoint.

Curriculum Vitae

Doaa Mohamed El-Nagar, PhD

Zoology Department,College of Women for Science , Arts and Education, Ain Shams University

Assistant Professor

QUALIFICATIONS

- **Ph.D. in Histology and Histochemistry - Department of Zoology- College of science, Art and Education for Girls – Ain Shams University– Egypt (2006)**
- **Masters Degree in Histology and Histochemistry - Department of Zoology - College of science, Art and Education for Girls – Ain Shams University – Egypt (2003)**
- **Bachelor of Science Degree in Zoology - Department of Zoology - College of science, Art and Education for Girls – Ain Shams University – Egypt (1997)**
-

PROFESSIONAL EXPERIENCE

- **Demonstrator –Department of Zoology- College of science, Art and Education for Girls – Ain Shams University – Egypt (1998-2003)**
-
- **Teaching Assistant- Department of Zoology - College of science, Art and Education for Girls – Ain Shams University – Egypt (2003-2006)**
- **Lecturer – Department of Zoology - College of science, Art and Education for Girls – Ain Shams**

University – Egypt (2006 to present)

COURSES, SEMINARS AND CONFERENCES

- **Final Seminar for PhD { Histological and Immunization study on the effect of antischistosomal and antifibrotic agents against infection by cercaria of Schistosoma mansoni in albio mice**
- **The 2nd Saudi International Nanotechnology Conference (2SINC) 2012 King Abdulaziz City for Science and Technology**

Workshop in scientific research writing –Egyption Histology Committee – Ain Shams University 2007

Worhshop in scientific research ethics – Ain Shams University 2007

Training course of Ethics of profession – TD Center -Ain Shams University-2016

Training Course of Effective Teaching TD Center - Ain Shams University-2017

SCIENTIFIC ACTIVITIES AND RESEARCH

LISTED OF PUPLICATIONS:

- **Doaa El-Nagar et al, "**Effect of corn oil, flaxseed oil

and black seed oil on lead acetate-induced hepatic tissue damage: A histological study **Medicinal Plants Research (2012) ,** 6 **(24) , 4128-4134 .**

- **Doaa El-Nagar and** Badr Abdullah Aldahmash" Effect of Corn Oil, Flaxseed Oil and Black Seed Oil on TesticularDamage Induced by Lead Acetate in Albino Mice: A Histological Study**, Pakistan J. Zool, (2013) 45 (4) 1083–1089**

- Badr Abdullah Aldahmash **and Doaa El-Nagar** " Histological study on the hazardous effects of ethanol on liver and spleen in Swiss albino mice**. HealthMED. (** 2013) **, 7(8)**

Doaa El-Nagar and Badr Abdullah Aldahmash " **The Protective Effect of Vitamin C Against Toxicity Induced by Lead-Acetate on Liver and Spleen in Swiss Albino Mice"** *Pakistan J. Zool., vol. 46(5), pp. 1425-1431, 2014.*

Badr A. Aldahmash , **Doaa M. El-Nagar** , Khalid E. Ibrahim , Mahmoud S. Metwaly " **Biotin amelioration of nephrotoxicity in STZ-induced diabetic mice"** *Saudi Journal of Biological Sciences,2015.*

Badr A. Aldahmash **, Doaa M. El-Nagar** , Khalid E. Ibrahim Attenuation of hepatotoxicity and oxidative stress in diabetes STZ-induced type 1 by biotin in Swiss albino mice. *Saudi Journal of Biological Sciences,2015.*

COMMITTEES

Member of international toxicants commitee.

Member of essential medical science committee – medicine college – Cairo University.

Member of Egyptian Histology and cell committee

Member of German Egyptian Zoology Committee

Member of Egyptian Zoology Commitee

TEACHING RESPONSIBILITIES

Undergraduate Courses:

- Experimental Histochemistry
- Histology
- Protozoology
- Human rights
- Ecology
- General zoology
- General Botany
- General Biology
- Biochemistry
