Section 01, CRN: 29773/4/5
First Semester 1437-38 H (Fall-2016) – 2(1,1,2)
“Introduction to Engineering Design”

Sunday, Dec. 25, 2016 (26/03/1438H)

Homework 2

Name:	Student Number: 4
-------	----------------------

Solve the problem described below [10 points]

1. You are requested to summarize a case study involving **engineering ethics**.
Your summary should include:
 - a. Background (e.g. what product, service, etc. is involved)
 - b. What conflict of interest, ethics issue was involved
 - c. What the person/people involved did regarding this issue
 - d. The consequences of the actions of the people involved
 - e. What would *you* do in this situation? Why?

Rules:

- You must prepare and submit the homework **individually** (i.e. this is not a group assignment).
- Your work must be **neatly written** in pencil (or typed) and in **proper English**.
- You must **use your own words** (don't copy and paste).
- **You must show all work** (including labeled sketches, if applicable).
- Due date: **Sunday, Jan. 1st, 2017** (03/04/1438)
